Mrs. Gabriella Lombardi

Stand J-1020

The Italian Institute for Foreign Trade (**ICE**) is the Government Agency entrusted with the promotion of trade, business opportunities and industrial co-operation between Italian and foreign companies.

ICE supports the internationalisation of Italian firms and their consolidation in foreign markets and offers a wide range of information, operating through more than 100 offices in over 80 countries in the world and through strategical alliances with foreign and international Bodies and Organisations.

Promotion

ICE organises participation in international exhibitions, buyer trade missions, seminars, congresses, press campaigns, to increase business opportunities and support companies entering foreign markets, to promote "Made in Italy" brand and improve industrial co-operation and foreign investments in Italy.

ICE's promotional activities contribute to encourage interaction amongst the business, scientific and academic world, thus fostering technology transfer and the creation of innovative products, processes and services.

Multilateral Cooperation

ICE supports Italian companies in activities of international co-operation, access to financing from international organisations and encourages joint-venture opportunities and industrial and technological partnerships with foreign companies, through workshops and bilateral meetings, financial and operative advice and specific seminars for companies operating in the services fields.

Information

www.italtrade.com is the specialized website dedicated to the major sectors of Italian production. The official directory of Italian companies can be queried both by sector and geographical market of interest.

Foreign companies can post business requests and offers that are stored in a database accessible to Italian companies.

Foreign companies can also find details of trade fairs and exhibitions held in Italy throughout the year.

Stand J-1020

FEAM since 1961 develops and produces Explosion Proof Electrical Equipment, mainly directed to the Petrochemical and Pharmaceutical market. The Company is included in the approved "Vendor Lists" of the major international companies, and has today achieved a leading position in the market, exporting in Middle East, Europe, Far East and North Africa.

Since its foundation, FEAM has heavily invested in R&D, offering a wide range of ex-proof products in full compliance with european and foreign standards, considering Quality, Reliability, and continuous development of HR as key-factors to succeed in the ex-proof market. That is why major international companies choose Feam as their Partner for Safety.

HEILA MARINE CRANES Srl

HEILA MARINE CRANES Srl

Stand J-1020

The Offshore Mediterranean Conference and Exhibition is a international forum for the oil and gas industry in the Mediterranean region.

Last edition attendance figures:

- 8 official delegations
- 1,065 delegates
- 8,964 professional visitors
- 368 exhibitors
- 12,000 sqmt exhibition area.

OMC 2011 will be the 10th edition. To mark this important milestone the theme will be:

“Global energy and Mediterranean Opportunities” as well as **The Energy Challenge: a Sustainable Approach.**

In addition to the conventional upstream topics, OMC 2011 will be dealing with rapidly emerging themes characterizing the future industry’s activity, such as sustainability, reserves replacement, unconventional resources, gas value, enhanced recovery, and for the first time renewables.

A series of special thematic workshops will complete the Conference programme.
