Italy brings a 500-year heritage of creativity and innovation to the foundry and metallurgical industry. When you buy Italian machinery, you're entering a partnership with the world's most highly skilled designers, engineers and manufacturers. The result is a sophisticated approach that combines leading-edge technology, extraordinary customer service and strong personal relationships – all of which guarantee greater efficiencies on your production line and your bottom line.

AMAFOND is the Italian Association of companies producing machinery, plants, furnaces and products for the foundry industry. Not surprisingly its members have earned a reputation as a world-class provider of foundry machinery to companies ranging from Kohler to General Motors. Whatever you make, Italian machinery will make it better.
